The private collections in England, however, are much larger than those in France.

—The eruption of Mount Vesuvius will probably relieve the countries of Europe from the threatened earthquakes. The mountain, as reported by the Atlantic cable, is in a very vigorous condition—the streams of lava filling and overflowing the long, deep crevices in the side. The direction of the current is the same as during the eruption of 1855. On the night of November 16th, the upper cone discharged columns of ashes, occasionally illuminated by flames of fire. Crowds of spectators are hurrying to Naples to witness the grand sight.

—The Feejee Islands are at present devastated by a terrible war, waged between the natives and the settlers, in which both parties perpetrate the most cruel atrocities. The colonists are driven from their plantations and the buildings burnt. The commander of the British war steamer Challenger destroyed a native village and killed forty-one savages. King Thakombau has paid the first instalment of the debt due to the United States, amounting to $12,250, to the United States Consul at Melbourne.

—The explorers sent out by the Smithsonian Institute in search of American antiquities, have discovered a large number of skulls and idols in the mounds of Indiana, Missouri and Tennessee. These remains are supposed to be older than any that have hitherto been found in this country, and are believed to have belonged to a race anterior to the Indians. The skulls are smaller than any previously noticed, are box shaped and almost square. In the same mounds were also found pottery and implements, unlike any that have hitherto been discovered.

—The practice of this new theory of cure was introduced, it is stated, in the United States by a German physician, Dr. Grus, who, in the year 1825, published a treatise on the subject. At first not much attention was paid to homœopathy, but in the next ten years, six works advocating the principles of Hahnemann were published. In 1834 Jahr's manual was translated, and found many students. At present there are 3637 practitioners of homœopathy in the United States, of whom 818 are to be found in New York, 274 in Pennsylvania, 352 in Ohio, 275 in Michigan, and 251 in Massachusetts. There are 61 Societies, 3 being national, 2 sectional, 16 State and 40 local. There are 7 colleges and 14 hospitals, infirmaries, etc., in different States.

—A process for coating brass and copper with a bright surface of platinum, has recently been published in the foreign papers. A nearly neutral solution of chloride of platinum is made by carefully adding carbonate of soda to the acid solution so long as there is effervescence. To this solution is added a little glucose and some chloride of sodium, without which latter substance the platinum would be deposited black. The articles to be coated have only to be immersed in this mixture; but when it is wished to coat a number of small objects, such as pins, it is recommended to place them in a sort of zinc sieve and immerse the whole in the solution, heated to about 160 degrees Fahrenheit. The coating of platinum is deposited almost immediately, and the articles have then only to be well washed and dried in warm sawdust.

—Madame Moga has quarrelled with the Empress Eugenie. Who is Madame Moga? Her Majesty's dress-maker, who for ten years received about a hundred thousand francs a year for filling her Majesty's wardrobe; until recently the Empress always yielded to the dictation of Madame Moga in matters of taste and style; but several months ago Eugenie commenced rebellion against her authority, and as Madame Moga, who is a very independent lady, would not stand any snubbing, a rupture ensued. Madame Moga now relies on the patronage of the Princess de Metternich, who has been the leader of Paris fashions for two or three years past, and who seems to remain as young as ever, while the Empress is fast growing old.

—The mastodon discovered some time ago in a slough, one and a half miles southeast of Fairmount, Vermillion county, Ill., was recently the subject of a report to the Chicago Academy of Sciences. Only one-eighth part of the bones have been exhumed, and these, owing to their having been near the surface of the earth and in the bed of the slough, which was sometimes full of water, are not in a very good state of preservation, being exceedingly brittle and hard to handle. Some of the individual bones are quite perfect, such as the bones of the feet, nearly all the lower and upper jaws, and fragments of the scapulæ and the head. The teeth, particularly, are well preserved, being clear and beautiful, the enamel showing no injury. The skeleton is larger than either of the two in the possession of the Academy.

—At a recent meeting of Baptist ministers in England to consider the subject of total abstinence, Mr. Spurgeon expressed himself as follows on the subject: "I may be allowed for a moment to be slightly egotistical, and say what is my position before. It may be the position of one or two others. It may illustrate it from my brother's case. Some time ago he was an avowed teetotaller; some nine months he was consistent to his pledge, but again and again he found from time to time he was literally failing, and one day, so close was he to the verge of the grave, that I said, 'Young man, there was one man who went to heaven in a chariot of fire, but that is no reason why you should go to heaven in one of water,' and I went myself and fetched a glass of wine, which enabled him to finish his day's work. He said, 'What more is to be done?' I said, 'I will tell you my own experience. I tried conscientiously to be a teetotaller for some nine months myself, but I found I was obliged to give it up, at least I thought so, and determined to take what I did take in secret. I bought some wine and some medicine glasses, and I think for a year I drank no wine but out of a medicine glass and with a locked door. But, of course, it leaked out, and I found I was doing more harm than by open drinking. I found some had got a habit of secret drinking who were confirming themselves in what I was doing; so I put the medicine glass on one side, that no one should say I was ashamed of doing publicly what I did in private.'"

This list only represents the largest and most powerful organizations. There are many others of which accurate records cannot be obtained, which would add to it considerably.

—The European war clouds are the Eastern questions and the rivalry between France and Prussia. Of course, Austria is connected with both these issues, either directly or in a collateral manner, and when her rulers speak, their words will be applied to the most prominent issues. This is a natural consequence of a fevered and excited state of public opinion, and war has grown out of as slight causes. But the Great Powers are not ready for a conflict yet, and, therefore, the Chancellor of Austria's speech will not produce more than a passing ripple upon the surface of European affairs.

—An earthquake at Cologne, and a violent eruption of Mount Vesuvius, are indications that the disturbances of the earth, which, in earlier periods of this year, were experienced in South America, and upon the western coast of the United States, are transferred to Europe. Vesuvius and Etna, and all other volcanoes, have been considered chimneys by which the internal fires might have vent, and when they were most active there was the least danger from earthquakes. Vesuvius has always been considered a sort of safety valve. There were few earthquakes in Calabria and neighboring provinces when Vesuvius was active, and while the volcano smoked away the people were merry. This has been a remarkable year for disturbances of the earth, and destruction and injury to man in consequence. It is to be hoped that the lamp of our troubles will be burned out with Vesuvius.

—The journalist who has now the largest income in Paris is Louis Ulbach; his pen, a veritable *plume d'or*, yields him no less than between seventy and eighty thousand francs a year. Jules Janin makes about fifty thousand francs annually; but he is growing old very fast, and is frequently prostrated by the rheumatism, so that he cannot work a great deal. His good humor, though, never leaves him for an instant, and his criticisms of artists and authors are still as good natured as if he enjoyed the best of health. He wrote lately to John Lemoine, in sending him an article: "Here is the copy for which you have sent to me so often. Excuse my delay in writing it, my dear friend; but let me tell you that I had to utter a groan at almost every word I penned, and inwardly cursed a thousand times the hapless mortal who in times of yore invented the art of writing."

—The Waco *Examiner* says C. S. Merriman, who murdered Mr. W. Gibson in that place last summer, was killed by the sheriff, Morris, 125 miles from Waco, on the frontier, a short time since. The sheriff, after a long and arduous cruise, had captured Merriman, who declared he would never go back to Waco alive. He was attempting to escape when he was killed.

—In Sherman they raise sweet potatoes weighing seven pounds each, and are growing pears as late as this. The *Courier* calls upon more than a dozen citizens of Republican politics, endorsers of the reconstruction acts, supporters of Gen. Grant, old citizens of Grayson county, whose property and interests are there, to come out and say how much truth there is in the statement sent forth from Sherman recently, and published all over the North, to the effect that "desperadoes had killed eight or nine soldiers, eleven white Unionists and freedmen without number," that the life and property of Union men are unsafe, etc.

—The Corsicana *Observer* gives an account of the killing of a notorious thief and murderer and refugee from justice, Ben Gregory, a young man about 25 years of age, who had formerly been a resident of Navarro county. Gregory, Kit Gregory, and a man said to be named Jim White, murdered a man in Bossier parish, La., by the name of Wm. D V. Vanarsdel, on the 1st day of August, 1867, in cold blood, and a reward of $500 each was offered for them. Gregory was captured at Bryan, but got away by jumping off a steamboat into the Mississippi river and swimming ashore, but was again captured, tried and sentenced to be hanged, and was to have been executed last month, but he got out of jail at Shreveport by picking the locks. He was discovered in the suburbs of Corsicana, and attempting to shoot the citizens who undertook to arrest him, when he was fired on and killed.

Gen. U. S. G—t:

Dear Sir: Forrest, of Memphis, has published a card in which he says I am "a liar, poltroon and scoundrel." What do you think should be done with an unhung rebel who thus vilifies a loyal soldier? I am, my dear General, your most obedient servant,

There are several more letters in our possession upon this subject. They are mostly to the point.

SOUTHERN TRANS-CONTINENTAL RAILROAD.

Letter from Gen. Rosecrans.

In a letter to the Louisville *Courier-Journal*, on the subject of the Southern Trans-Continent Railroad, General Rosecrans makes the following suggestions:

1. This is the Congressional session, when the outgoing wishes to do something gracious, and the incoming administration ought to be glad to get rid of the responsibility of appropriations in aid of our railroads, and both ought therefore, to favor the required appropriations.

2. The development of the South and West, and the construction of a Southern Trans-Continental Railroad are so abundantly fraught with public benefits, that if those interested use proper means and minds to lay the facts before the country through the press, they can create a public opinion that will bear their measures through Congress promptly and without extra effort. But if they act without unity, and each interest understandingly conflicts with the other, I am afraid of failure, expense and mischief.

3. I earnestly suggest that only three of the principal lines, say the Kansas Branch, Atlantic and Pacific, and Memphis and New Orleans, and Fulton or Shreveport, ought to ask subsidies to the valley of the Rio Grande.

4. Thence to the Pacific there should be but one grand trunk line, over which all the westward bound lines from the Mississippi and Gulf to the valley of the Rio Grande should have equal rights to run trains at uniform rates and charges.

5. That the rights and subsidies for its construction from the Rio Grande to the Colorado should belong to that one of these lines which should first reach the initial point to be fixed in the valley of the Rio Grande, and from the Colorado westward to the Southern Pacific Railroad Company, or to the San Diego and Gila City Railroad Company.

6. That the initial point should be fixed in the valley of the Rio Grande, near El Paso, because that will open two hundred miles of that great and fertile valley, accommodate all the westward bound railroad lines from the Kansas branch to the Rio Grande, give an initial point for a railroad to Chihuahua, and for an overland thence to the Pacific, possessing all the advantages set forth in the note appended to this letter, to which I beg to call especial attention.

7. To effect the best results, the friends of these railroad lines should organize, appoint special representatives under one general head, and discuss and arrange the programme which this head should carry out.

This arrangement will give all a fair chance, do most that can be done for the entire railroad interest, and prevent those otherwise necessary combinations of extreme and stronger interests which in self-defense crush minor ones, while it would reduce to a minimum the chances of corruption and public demoralization.

NEW DEVELOPMENTS.

The Production of the Pennsylvania Oil Regions.

A correspondent of the Chicago *Times* writing from the oil regions of Pennsylvania, says:

The returns of the whole oil region shows a product for October of 340 813 barrels; for the last day, 11,113 barrels—a reduction of 1414 barrels upon the last day of the previous month. From the 1st of January to the 1st of November, the aggregate yield was 3,090,000 barrels—with nearly double the number of new wells—an increase of only about 10 per cent, upon last year's product. During this period of ten months, the shipments to foreign countries have increased 50 per cent upon last year's; whilst the stock on hand in Europe aggregate no more, showing a greatly increased consumption there. Meantime, the whole stock on hand here is only 268,000 barrels, against 686,000 (or 400,000 less than) the same time last year. The price averages $4 00 per barrel, against $5 50 last year.

The number of new wells being drilled is 435 against 255 the same time a year ago, and of these 213 are at Pleasantville, where there are already about 100 producing wells, the whole yielding daily about 2000 barrels. It is estimated that there are about 1000 wells in operation in the whole region, averaging only 10 to 12 barrels each daily.

The old oil region proper is all on the west side of the Alleghany river, with the exception of a few wells on the east side, immediately upon the margin of the river. These few wells on the east side have all been spasmodic, and, with the exception of those opposite Tidioute, very short lived—the oil having been obtained only within a few hundred feet of the surface, in the first or second sand rock; no third or fourth sand rock having been found, either at the river or 20 miles east of it, although in the latter instance the wells are sunk a thousand feet. The general impression was that there was a third or fourth oil strata (which are the reliable ones for productiveness) on the east side, notwithstanding Profs. Agassiz and Bowen gave their opinions that they might be found there at some distance back, where they were not, as at the river, displaced entirely; provided the real eastward dip of the strata was taken into consideration.

As at Pleasantville, the Mecca of Oildum, it seemed to be reserved for a Chicagoan to make the discovery of the great third sandrock, or regular oil-bearing stratum on the east side. By regarding the suggestions of these distinguished geologists, a citizen of your place has just reached, at considerable depth, the very desirable third sandrock, with abundance of oil-pebbles, and is now drilling for a fourth, with a certainty of oil in large quantities when he shall have found an opening or crevasse, as at Pithole or upon Oil Creek in old times, when it was no uncommon thing to strike a flowing well that yielded from 500 to even 3000 barrels per day.

Petroleum having become such an indispensable article both at home and abroad, the importance of this discovery to consumers cannot very well be exaggerated; nor to trade, when we remember that after being refined its aggregate value amounts to from $40,000,000 to $50,000,000 annually; especially when we reflect that the old oil region, on the west side has ceased to flow, has but one well of even 250 barrels, and less than five yielding over 100 barrels daily; showing that it is, more or less, one common basin, daily being emptied lower and lower of its gas and oil.

DIRECT TRADE.

Knoxville the Place of Meeting.

From the Knoxville Press and Times.]

We find the following proceedings of the company organized at Norfolk, at the time of the Direct Trade Convention there, on October 14th, in the Lynchburg *News*. It might be proper to state that this meeting was held at Lynchburg on the day of the meeting of the stockholders of the Virginia and Tennessee Railroad, November 18th:

Pursuant to advertised notice, the International Commercial Company of the City of Norfolk, convened at the Corn Exchange yesterday at 12 o'clock, noon. The attendance was large in point of numbers, and highly respectable in point of the business standing and intelligence of the gentlemen present.

The meeting was called to order by Col. Wm. Lamb, who enquired whether it would not be better, in view of the circumstance that several large subscriptions were not represented, to adjourn the organization till some subsequent occasion.

Col. Fayette McMullen arose and subscribed for one share of stock in the company, and took occasion to add a few forcible remarks on the importance of direct trade between Southern ports and Europe. The speaker paid also a glowing tribute to Gen. Mahone, and his management of the Virginia and Tennessee Railroad.

Dr. Robinson, of Norfolk, addressed the meeting, urging the importance of direct trade, and promising the measure at all times his heartiest support. He did not consider the present a fit occasion, however, to effect an organization of the company.

After further discussion, the following resolutions were offered and adopted, after which the meeting adjourned:

Resolved, That the subscribers to the International Commercial Company, now assembled in general meeting, deem it inexpedient at this time to perfect a permanent organization, as many of the subscribers to the company, residing in this and other States, are not present.

Resolved, That this meeting of the stockholders adjourn to meet in the city of Knoxville, Tennessee, on the second Wednesday of February next, for permanent organization.

Resolved, That the Commissioners named in the charter of the International Commercial Company are hereby requested to continue their efforts to obtain subscriptions, and are hereby authorized, so far as this meeting can do so, to collect ten per cent. on subscriptions made, and to have the same fund deposited with the treasurer appointed by them, who will be required to give ample security for the safe-keeping of such fund, and to hold it in trust for the company when the same is legally organized.

Resolved, That the railroad companies interested in this important scheme of Direct Trade, are hereby requested to furnish free passage to any agents who are traveling exclusively in the interest of this company.

THE NEWS.

The use of grape-shot has been abolished in the British army.

The Emperor Napoleon is likely soon to have another heir to his name and dynasty.

The annual earnings of the American people are estimated at $7,500 000,000, and their domestic trade as nearly $6,000,000,000 a year.

Nashville merchants have $30,000,000 invested in the tobacco trade. In 1840 the capital invested was only $55,000.

The women of Alton, N. H., gutted a liquor shop in that place last Wednesday and emptied the fluids into the street.

The John Kelly nominated for Mayor of New York by the Democracy, was formerly Sheriff and subsequently a member of Congress.

The Vermont House of Representatives have passed a bill, fixing the standard weight of a bushel of onions at 54 pounds. The Senate has passed a bill fixing it at 50 pounds.

A model of Melrose Abbey, made of cork, is on exhibition at the rooms of the Historical Society in New York and attracts much attention, every detail of that famous structure being represented with the utmost fidelity.

Of the 150 000 teachers in the United States it is asserted that 112,000 are females. The city of Boston has 553 female to 62 male teachers; New York city 1506 females to 176 males; the State of Ohio 13,229 females to 634 males.

It is stated that numerous Jewish families residing in London and Lisbon, having asked if the Provisional Government had abrogated the old laws which expelled them from Spain, have received an affirmative answer.

The comic papers of Buenos Ayres contain caricatures of the leading persons in the Washburne affair, including our Minister himself—who is represented as running off with his umbrella and carpet-bag in a state of great alarm.

There was a distinct shock of earthquake felt on Staten Island on Sunday last. A feeling of dizziness was experienced by many, who lost no time in getting out of their houses as soon as their bewildered senses would allow them.

The Ohio National Bank Association met in Cincinnati on Monday. The resumption of specie payments was argued at length, and was agreed to as advisable for the best interests of the country. Without taking any definite action the Convention adjourned to meet in Columbus on the third Tuesday in May, 1869.

Wisconsin, it is asserted by the journals of that State, has a larger population of foreign born inhabitants than any other State. Of the naturalized citizens, the Germans are the most numerous, the Irish next, and the Norwegians third in point of numbers. There are also a great many English, Dutch, Welsh, Belgians, Scotch and Bohemians.

Hon. George G. Leiper, whose death, in the eighty-third year of his age, at his residence, in Delaware county, Pa., on November 17th, is announced, was very prominent in the political history of Pennsylvania. He was a member of Congress from Pennsylvania, from 1829 to 1831, and was twice chosen Presidential elector, both times voting for Gen. Andrew Jackson.

According to the Texan newspapers, the question of dividing Texas into three States will be brought up before the Constitutional Convention, which is to re assemble next December. The proposition, when heretofore introduced, it is stated, was rejected by a small majority, and it is reported that several of the delegates who were previously opposed to the measure, are now in favor of it.

The telegraphic dispatches from Spain say that Gen. Prim is in favor of making the Prince of Asturias King—himself to be Regent. Gen. Serrano, whose influence with Gen. Prim is unbounded, has been said, in the scandalous chronicles about Queen Isabella, to be the father of the Prince of Asturias. He was the Queen's lover at the time the Prince was born, and the paternity of Isabella's children is never assigned to the King.

A recent account of the industrial establishments in Leipsic states that the number of printing offices amounts to 60, with about 800 compositors. In 1868, the number of handpresses was 90, of single power presses, 161, and of double power presses 3. It will be understood that Leipsic is the center of the book-publishing business of Germany, and that a large proportion of German books are printed there.

The crooked and narrow streets of Boston have at last become a nuisance not to be borne by the inhabitants, and energetic efforts are being made to open wide thoroughfares in the business part of the city, to remedy the present blockade of vehicles. To carry out this measure effectively some of the old landmarks of Boston will have to be removed. A slice it is stated will be cut off from the venerable State House.

At Troy, N. Y., Tuesday, Hon. Abraham Van Tuyl, a venerable and most respected citizen, died suddenly while engaged in reading the Bible to Miss Rachel Ann Hay, his niece, while conducting family worship. During the reading he took a long breath, with a considerable pause followed by a second and third, the last of which was so long as to cause Miss Hay to look up and to discover that the Bible was sliding from his knee. The lady at once went to his aid, only to learn that the good and pious man was dead.

At the late meeting of the British Association, Professor Huxley called attention to the existence, at great depth (6000 to 15,000 feet) in the Atlantic ocean, of immense numbers of small jelly-like bodies twelve-hundredths of an inch in diameter, and thickly dotted through with minute solid spherules, of definite shape. Without expressing himself as to their true nature he considered them as possibly belonging among objects forming the common ground between plants and animals.

Reverdy Johnson has gone the whole Wendell Phillips hog. In his recent reply to the address of congratulation of the Freedmen's Aid Union of Great Britain, he gave his experience as a Southerner, of the colored man, declaring him capable of receiving education and of becoming the equal of the white race. Mr. Johnson stated that he had defended the claims of hundreds of colored persons, and asserted his conviction that they were of average intelligence, judged by men of his own color.

Letters from Crete, dated September 26th, report that the mountains are filled with refugees, chiefly women and children, who are subsisting on roots, grass and the bark of trees. The whole fighting force, refusing to submit, are still harassing the Turks and presenting as firm a front as possible under the most adverse circumstances. The Greek Consul in New York also says that 60,000 Cretan refugees are scattered through Greece, and are entirely destitute. Recently a large body of Cretan children, clothed in garments sent from the United States, went to pay a visit of thanks to the American Consul at Athens.

A Madrid (Spain) letter of the 1st says "the American Minister, Hon. John P. Hale, was honored with a serenade the other night from a number of officers who had enjoyed the protection of the Legation at the failure of the insurrection in June, 1866. Most of them would have been shot had they been caught, and although the government knew their place of retreat it took no measure to compel Mr. Hale to give them up. A military band and a company of guitarists furnished capital music. Speeches were made, cheers given, and a grand time enjoyed generally by an immense crowd that followed the music about."

At a recent meeting of the French Academy of Sciences, there was exhibited a mass of ice, eight inches thick, and twenty long and broad, frozen artificially, in a few moments, by a new process, and one capable of supplying blocks three feet in thickness equally well. The refrigerative salt was the nitrate of amonia, and the method consisted in freezing the water into the shape of hollow cylinders, with walls about four-tenths of an inch thick, and of varying diameter, so that one could be slipped inside the other up to almost any desired extent. When thus brought into opposition they readily freeze together, especially with the addition of some water, and produce a solid mass.

IS THE SOUTH RESPONSIBLE?

In our issue of Monday we published some remarks upon the last notorious effort of the Tuscaloosa *Monitor*, that was fortunate or unfortunate enough to meet with the dissent of the *Avalanche* and the *Bulletin*. The latter in its remarks upon our article takes issue with us upon our objections to the South being saddled with the responsibility of the *Monitor's* artistic skill, and the *Avalanche* objects to our remark that such papers are published "fierce and vindictive," because there is money in it, and charges us with reflections upon the patriotism and character of Mr. MULLALY which that gentleman himself would be slow to assume.

In answer to the *Bulletin* and its glorification of Gen. THOMAS, we have to say that it will hardly succeed in making this community believe that it, or the people of the South generally, is responsible for the wild utterances of a paper that is limited to six hundred subscribers, as the *Tuscaloosa Monitor* confesses; and it will find it much more difficult to persuade us that the few evidences of discontent that outcrop, as a result of the tyranny of its own party, will justify the misrepresentations which chiefly compose the report of Gen. THOMAS. While we deplore the heated and hasty words of the *Monitor*, we are not unmindful that, on the other hand, Radical malevolence, passion and prejudice, multiply occasions for such utterances, and are, after all, responsible for them. Reflecting, too, upon the present condition of affairs in our own State, we can well excuse the article of the *Avalanche* of the 22d, to which the *Bulletin* refers as a sample of the style of journalism to which we object. The subject of that article—HAMILTON—is a blot upon the body politic, and by his course has deserved the reprobation of this community. Such excoriations of public men when deserved are justifiable, the language in which that excoriation is administered only being a question.

The conduct of Governor BROWNLOW has had much to do in occasioning the patronage of journals such as the *La Crosse Democrat*, in which the people, harassed and annoyed, persecuted and hunted down by his bitterness, have found the passionate utterances of their hearts echoed in language which they would be far from selecting. And though we shall continue to animadvert in proper spirit and becoming words upon such articles as those of the *Monitor*, when out of time and place, we shall yet despair of any result following, until BROWNLOW and all that ilk are laid away in the retirement and oblivion from which it is a pity they were ever drawn forth. Like begets like, and so long as Radicalism exists we expect to read such frothy and effervescing fulminations, and in just such words, as characterize the *Monitor*.

As to our position in regard to Mr. MULLALY we have only to say that we had no reflections to make upon his course as a patriot or a man. In both characters we admire him. But from the course of his journal we totally dissent. Whoever will take the trouble to read the *Record and Vindicator* closely will find articles that hardly comport with any other than that style of journalism that is made to pay. They are not only sensational, but in many respects reprehensible and such as few men would care to put in the hands of their daughters or their wives for fireside reading. When the *Bulletin* asserts that the South is responsible for such it utters a libel upon the taste, the discrimination and culture of our people.

What the *Metropolitan Record* was during the war the *Record and Vindicator* is not now. Then it was an able, dignified, high-toned Democratic journal, dealing strong and powerful blows for the South and her persecuted people. Now it is a Democratic organ; but oh! how fallen from the high estate that won for it an honorable renown among the ablest vindicators of statesmanship, right and justice. We say fallen, as to the words it uses and the expressions that have disgusted many of its once best friends.

THE PROPOSED DRY DOCKS.

Among the subjects broached at the meeting of the Chamber of Commerce on Monday afternoon we noticed that of the proposed Dry Docks. Capt. DAVIS told the Chamber that he had seen Mr. HAMILTON, one of the present owners of the Docks, at present located at Cairo, and that $25,000 only were needed to complete their purchase and immediate removal to this city. The subject of the purchase of the Dry Docks has been discussed by our citizens in private as well as public pretty thoroughly. It has been shown beyond any question that not only much money that now finds its way from this city to St. Louis, Cairo, and New Albany, will be spent here in repairs should the Dry Docks be located here, but that we would be able to absorb much of the cost of repairs of transient boats and the refitting of all that ply in this vicinity. At least two hundred men would be employed, most of them heads of families, and a desirable addition thus be made to our permanent industrious population. Successful as the scheme must prove, it would suggest others, until eventually we would reach that point in manufacturing and mechanical industry that is desirable ere we can lay claim to complete success. This matter is worthy the attention of our merchants, bankers, insurance companies and brokers. Whatever affects the prosperity of Memphis intimately affects these classes, who cannot isolate themselves from an undertaking promising so much without involving their character for enterprise and energy. We renew our expressions of hope that our leading men will take hold of this scheme, and purchase and locate the Dry Docks at Fort Pickering.

IMMIGRATION.

From the Augusta *Chronicle and Sentinel* we learn that a call has been made for a Farmers Convention for the State of Georgia, to meet at Macon on the 9th of December, to take into consideration the most feasible plan, with State aid, of securing a share of the vast immigrant population daily seeking our shores. This is one of the most practical suggestions we have yet read, and compares favorably with the plan of County Immigrant-Aid Societies suggested by Commissioner BOKUM. It is worthy the consideration of the farmers and planters of Arkansas and Mississippi, as well as those of our own State. The people of the Middle States of the South are becoming alive to the importance of securing immigrants. We hope those of the Mississippi Valley States will follow the good example.

GRENADA AND MERIDIAN RAILROAD

Some few weeks ago Col. TREZEVANT started to canvass the country on this line, for subscriptions for paying for a survey. He returned home a few days ago, and will start the engineers to work next week. Mr. H. N. PHAN will have charge of the party; and we congratulate our friends with the prospect for an early connection with the Mississippi at Memphis. This is the spirit to build up a country, and our people are rapidly concluding that it is a country worth building up.

MEMPHIS, YAZOO CITY AND VICKSBURG RAILROAD.

We learn that Col. TREZEVANT has been in correspondence, for several weeks, with the friends of this project, in the several counties on its line, and we are glad to hear that such an enthusiastic spirit is aroused as will insure the early inauguration of the work. It is evident to all that, in a few years more, we shall have to look to the South and West for our cotton, and no section of this rich valley is so fertile as the famous Yazoo Valley. A short time since, a large meeting was held at Yazoo City, and committees appointed to collect funds for surveying the route, canvassing the line, etc., etc.; and we have just seen a letter from the committees of correspondence to Col. TREZEVANT, touching the measures best for energetic action. He has just returned from a canvass on the line from Grenada to Meridian, and informs us that he will put a corps of engineers on that line by the 5th December. So soon as they have completed that work, he proposes to canvass the Yazoo Valley line down to Vicksburg. We trust our friends in Yazoo City and Vicksburg will give Col. T. such assurances as will enable us all to feel that one of the richest regions in the world will soon be united to us by *iron bands*.

WHAT CONGRESS OUGHT TO DO FOR US.

In the long list of appropriations for customhouses and postoffices suggested in his annual report by the Superintendent of Public Buildings, there is not one dollar asked for a Tennessee city, notwithstanding the United States here greatly needs public buildings for her law courts, postoffices, customs offices and revenue offices.

In Memphis the offices of the United States are scattered from one end of the city to the other, making it quite a day's business, for those who have occasion, to reach them all. The Courts are a mile removed from the postoffice, and the Collector of Customs a half mile from either, the Revenue Collector and Assessor being a block or more apart. We are bearing our proportion of the burdens of the Government and we submit should have so much share of the benefits as the construction of public buildings demands. Our present representative—Mr. NUNN—might signalize the close of his congressional careerby securing for us an appropriation equal to the construction of a handsome building that would answer all the purposes of all the officers of the Government located in Memphis: and, if troops are to be retained here, we suggest, also an appropriation for a healthfully located barracks. If Mr. NUNN will put the ball in motion, Dr. LEFFWICH, when he comes to take his seat, will keep it rolling until Congress grants the sum needed.

An appropriation for this purpose, together with appropriations for our Pacific Railroad, are what we think Congress ought to do for us. Will Mr. NUNN not act in the premises?

THAT $52,000.

We had hoped that our sprightly contemporary, the *Ledger*, would, last evening, have enlightened the public as to the $52,000 which it, on one or two occasions, mentioned in a mysterious sort of way as connected with the missing "school fund." But it failed in what it challenged us was a duty. We have not been so derelict. Yesterday we made it our special business to obtain the facts concerning this large sum, and submit, as very reliably authority, the following to our readers:

The Tennessee National Bank, some time before its failure, was made the depository of the funds of the State from whatever source collected in this city and vicinity. As such depository there was, at the time of its closing, the sum of $52,000 on deposit for the State, the proceeds of tax collections. There being no money from which to reimburse the State for this sum, certain "bills receivable"—among the best in the Bank—were set aside and placed in the hands of a reputable law firm for collection, the firm giving their receipt therefor to the State, which receipt is now in the hands of the State Treasurer, and is doubtless carried over upon the books of the State as representing part of her assets. This firm, we further learned, has been compelled to institute suits for the recovery of the value of these "bills"—many of them now pending in the Municipal, Chancery and Supreme Courts. The amount is in no way connected with the "School Fund," and could not, as we understand, be applied to the deficiency in that fund of which we complain. In this matter we acquit the State authorities of all culpability.

WASHINGTON.

WASHINGTON, November 24.—Attorney General Evarts has rendered an opinion to the Secretary of the Treasury, that to carry from the outlet of the worm the product of distillation to a still or doubler, through which such product has not passed before reaching the worm, is not a violation of the act of July 8, 1868. The interposition of a tank as a receptacle between the worm of the first distillery and the doubler or second worm, is not a violation of this act, as those conclusions refer only to proof spirits, and not other rectifying of the same, or the manufacture of other alcoholic compounds.

The new postal treaty with Great Britain was signed by the President today, and goes into effect on the first January.

It seems that nothing is to be done at present with Collector Coke, of Philadelphia; neither is it likely that the Secretary of the Treasury will order his suspension under the Tenure-of-Office act.

ALBANY.

ALBANY, N. Y., November 24.—The residence of Elisha Fierro in West Devenport in this State, was entered by burglars last night, and his wife murdered. The villains escaped, but without receiving any booty.

RICHMOND.

RICHMOND, VA., November 24.—H. Rives Pollard, editor of the *Southern Opinion*, was shot and killed at 10 o'clock this morning while passing near his office, by James Grant. The cause of the shooting was the publication in the *Opinion* of an article reflecting upon the character of a member of Grant's family.

NEW YORK.

NEW YORK, November 24.—The Grand Jury of the Circuit Court for the Southern District of New York, have found a bill of indictment of nine counts against William Fullerton, Jacob Dehing, Alfred Belknap, Alfred C. Birdsall and Edward J. Windust, for conspiring against Revenue Collector Thomas E. Smith, and of receiving from him ten thousand dollars, under a threat of informing upon him as to the offenses with which he was charged before United States Commissioner Osborne.

Instructions were also received from the Attorney General of United States, directing District Attorney Courtney to proceed with the trial pending in his Court of the Bourbon Company and others, on the charge of defrauding the Revenue. The trial was commenced yesterday afternoon.

Further correspondence is published between Washburn and the Paraguayan Government. Berlz, the Paraguayan minister for foreign affairs, charges Washburn with corresponding with Caxias, and forwarding important information to him under the seal of the Portugese Consul; and supports his charges by the affidavits of Dr. Carrenas and Minister Borges. Another and more serious charge is that he carried drawings of the Paraguayan camp to Caxias, and received from Benigno Lopez, one of the alleged conspirators, $16 000, and afterward $140 000 in currency and a promise of $500,000, in consideration of this act and of binding himself to recognize the success of the allies.

There was an adjourned meeting of citizens at the Fifth Avenue hotel last night, at which Greeley and Raymond are said to have been present, and decided that it was inexpedient to run an independent candidate for Mayor.

A well attended meeting of the Working-women's association took place last evening. Committees were appointed to report upon the work and wages of women in different pursuits, and addresses were delivered by several ladies.

Mr. McCullough has written Mr. Vandyke that he shall not sell any more bonds during his administration.

On Sunday morning the stables of the American House at Trenton, N J, together with the stables of Ivins & Manut, with nine horses, seventeen new sleighs and an immense quantity of harness, hay, etc., were entirely destroyed by fire.

Henry B. Whilpley, a citizen of New York, yesterday preferred a bill of complaint before Judge Blatchford, of the United States Court, asking an inquiry into the validity of the issue of the $200,000 shares of Erie stock, in exchange for contracted bonds, under a resolution passed by the Board of Directors February 19, 1868, and if it should be judged illegal, that the company be compelled to make good to the holders the amount therefor, and that in the meantime an injunction be placed on that company, preventing the parting with the property, and a Receiver appointed, and that the company be directed to transfer enough property to him to meet the claims of the plaintiff and others on this complaint. Judge Blatchford issued the injunction and appointed Jay Gould receiver to the road, to the extent above mentioned, with sureties to the amount of $1,000,000, and the right of a million in money or securities to be placed in his hands, subject to the further orders of this court, in order to protect the plaintiff and others. Mr. Gould's bond was then filed, his sureties being Henry W. Smith, J. Fisk, jr., Wm. Tweed, and H. Hugh Smith.

Two new suits have been begun by the Erie Company—the first against Belmont and others, and the second against Richard Schell, Daniel Drew, and Frank Work. On the first the company claims $1,000,000 against the defendants for hampering them in the cause of their business by means of suits last spring and those recently begun. In the other, damages to the extent of $45,500 are claimed for alleged corrupt practices of defendants while acting as Directors in June last, said amount having been paid out of the funds of the company by Messrs. Eldridge, Drew and Thompson, to settle the first named suits, and out of which said work they received $150,000, and also bought from a friend of Schell's, for the company, $50,000,000 of its own stock, for which he paid $100,000 more than its actual value. Gould also alleges that offers have been made to agents of the company to settle the recent Belmont suit; if the company would pay them a large amount of money.

Judge Barnard to-day issued an order vacating the orders granted by Judge Sutherland yesterday, and subsequently Judge Sutherland issued an order requiring the defendant to show cause why the order of Judge Barnard should not be vacated. It will be argued to-morrow.

Fisk and Gould are entrenched in the Erie railroad depot at the foot of Chambers street, and no person is permitted to approach who cannot prove himself a friend and brother. There are more keys to turn and bolts to unbar than at the Tombs, but there are some Deputy Sheriffs inside the building, bent on what business they refuse to tell.

Jake Fullerton, Alfred Belknap, Daniel C. Birdsall and Edward J. Windorst, indicted by the grand jury on the charge of having conspired to defraud Thos. E Smith out of $10,000, appeared before Commissioner Sidwell to-day, and gave bail to the amount of $50,000 to appear for trial.

Clarence E. Seward and Aaron Handerpool became sureties for Judge Fullerton in $25,000 each. Edward McClelland and R. W. Mitbank became sureties on each bond on each of the defendants, for the same amount. Subsequently Judge Porter, in behalf of Judge Fullerton, and Judge Beebe, in behalf of the other defendants, obtained until the 3d prox. for the defendants' plea in answer to the indictment, and for the counsel to make a motion in the matter.

FOREIGN.

BERLIN, November 24.—Count Bismarck makes no secret of his design to leave the Federal party and join the Liberals.

LONDON, November 24.—The funeral of the rioters shot at Dr kheda was the occasion of a Fenian dispute there Sunday. There were great crowds in the streets and fully 8000 persons in the procession. The Fenian demonstration at Dublin and Hyde Park, London, on the same occasion, were trifling affairs.

Mr. Gladstone, in a pamphlet entitled "Chapter of an Autobiography," just published, defines and defends his changes of opinion on the subject of Establishments. All the liberal journals reviewed the book, but apparently copies were not furnished the Conservative press, as they are silent about it. The *Times* regards it as a voluntary and hazardous confession.

The Pall Mall *Gazette* urges the Alabama Commission to sit alternately in London and Washington, for the convenience of both the British and American claimants.

Mr. Gladstone and his colleague, Mr. Grenfell, have been defeated in Southwest Lancashire.

MADRID, November 24.—The advocates of Republican institutions are gaining ground. The city of Barcelona favors a Republic.

NAPLES, November 24.—The eruption of Vesuvius is subsiding, and there are now no fears for the adjacent villages.

ST. JOHNS, N. B., November 24.—There is a better feeling in financial circles to-day, and hopes are entertained that the crisis is passed.

St. Stevens Bank Directors are sanguine that the business of the bank will shortly be resumed. Scoville's liabilities are $500 000.

Dispatches from Halifax say that the mackerel fishing this fall has been almost a total failure, and it is feared that there will be much distress again this winter.

It is intimated that the advisory opinion from the Supreme Court, requested by Gov. Reed, is ready, and will be rendered soon, perhaps to-night.

They offer them for sale at moderate prices, and we hope every *bonvivear* will avail himself of the chance to secure an unwonted luxury.

FAIR OF THE CENTRAL BAPTIST CHURCH.—The ladies of the Central Baptist Church regret to announce their disappointment in obtaining the Hotel in time for the festival. The gas and heaters will not be in readiness, and having already postponed it so long, they are determined to have it, commencing this evening, at the Tabernacle, Court street. The house will be made perfectly comfortable, and every effort will be made to make it more agreeable to those who are so kindly aiding them in their noble enterprise. The festival will close with a fancy dress promenade at the Hotel, corner of Monroe and Main streets.

DR. CLOPTON.—This gentleman, so efficient and successful in the cure of piles and fistula, has had under treatment many of our best people, and in every instance where his treatment has been followed, has effected a cure. This is his last day in Memphis. Those, therefore, who have not availed themselves of his skill should call immediately and consult him. Yesterday he was called upon by many of his former patients, who out of the gratitude of their hearts thanked him for the cures he had effected and wished him *bon voyage*

TENNESSEE MANUAL LABOR SCHOOL. Samuel Lowery, a colored "elder" in Nashville, made a trip North in July and August last, in behalf of the above institution, and reports collections to the amount of $2554. Among the subscribers were President Johnson, Senator Fowler, Horace Greeley and Henry Ward Beecher. "Elder" Lowery designs to start out on a new trip in the interest of the above institution at an early day. He returns thanks to the press and the public generally for the uniform courtesy with which he has been received, and the attention which the Manual Labor School of Tennessee has everywhere elicited.

A NEW CONTRACT FOR POSTAGE STAMPS.—In June last, Postmaster General Randall advertised for proposals for furnishing the Government with postage stamps for a term of years. The committee of experts appointed for the purpose decided in favor of the National Bank Note Company, of N. Y. city, and on Saturday last the Postmaster General awarded the contract to that company for a term of four years. The two-cent stamp represents a post-boy on a horse running at full speed, illustrating the fact that this stamp is mostly used for dispatch letters. On the three-cent stamp there is a finely engraved locomotive. This is surrounded by lines of lightning, indicating the speed with which letters are carried on which this stamp is used. The five-cent stamp has an excellent portrait of Washington. The ten-cent stamp has an excellent microscopical copy of the painting of the signing of the Declaration of Independence, bringing in the rotunda at Washington. The twelve-cent stamp, mostly used for foreign postage, has a picture of a steamer at sea. The thirty-cent stamp has a copy of a painting of the surrender of Burgoyne, hanging in the rotunda of the National Capitol. One of the characteristics of the stamps manufactured by this company is that the ink used prevents persons washing and using the stamps a second time. The fiber in the center of the stamp is broken completely, and they adhere better, while the ink of cancellation sinks into the paper. The engravings on the stamps are remarkable copies of historical pictures, and bear the test of a microscopical examination.

HOMICIDE.

Killing of James Kenney at McGee's Station.

The Deed Done in Self Defense.

Wm. Heston, a dairyman in the employ of Mr. Bradford, of McGee's Station, on the Memphis and Charleston R. R., day before yesterday killed one James Kenney, a fellow-employee, under the following circumstances:

Kenney, who is usually a quiet, peaceable man, had been drinking considerably during the morning on Monday, and had grown quarrelsome from the effects of the liquor. He had had some words about noon with Heston, who is represented as also being a very quiet, inoffensive man, scarcely yet of age, and coming into the yard where Heston was milking a cow, recommenced the quarrel with him. Heston at first made no reply to the abuse which Kenney heaped upon him, but at last, provoked beyond endurance with his insulting remarks, retorted in a similar strain, and Kenney, swearing that he would kill him, picked up the strap part of a gate hinge, and made at him. Heston, jumping off his milk stool, picked up a bar of hickory, used to fasten to a folding barn door, struck Kenney on the temple, injuring him so severely that he died in a few hours afterward. Heston was arrested yesterday and brought before 'Squire Milliard, who committed him to jail for further examination.

CAPT. AVENT.

The Particulars of the Late Tragedy.

We are indebted to yesterday evening's *Ledger* for the following particulars of the shooting of Capt. Benj Avent:

Yesterday brought by telegram the sad intelligence to Dr. B. W. Avent that his son, Capt. Benj. Avent, had been mortally wounded. He immediately started by train for the scene of the murder, which place is known as Hickory Hollow, on the Mississippi Central Railroad, seven miles north of Grand Junction, which town, with the surrounding country, has been for a long time infested with a band of horse thieves and robbers, whose depredations are well known to every one. Capt. Avent had had a dry goods store at Hickory Hollow, where he has been living for a short while with his beautiful bride, married only a few months since. On night before last a negro came to the store about nine o'clock, and stated that there were four armed men a short distance down the road, stopping every one, and wanted to know of him when he was going. On hearing of this, Capt. Avent and a small party, who were in the store at the time, armed themselves, and waited the coming of the robbers, expecting they would be attacked and the store robbed, but nothing transpired during the night. The citizens next morning met to determine measures for their safety, and it was concluded that a party of mounted men should go in search of the band of horse thieves, who were thought to be in the neighborhood at the time. They had an idea that one Reynolds, a notorious desperado, who had been driven from the country some time ago for theft, might have been in the party of the night before. The mounted citizens in search of the robbers concluded to go by the old home of this man Reynolds, and see if he had returned to the county. On riding up to the gate of the yard, Capt. Avent, in front, hailed and wanted to know from Reynold's wife whether her husband was at home. She replied in the negative. Capt. Avent, not being satisfied, got down and started toward the house. The woman shut the door, but the Captain forced it open. On his entering, a double-barrel shotgun, loaded with No. 3 shot, was discharged at him, one entire load entering his forehead, and the contents of the other barrel ranging a little downward. He fell to the floor mortally wounded. The party of citizens there demanded the surrender of Reynolds and he did surrender, and was taken back and placed under charge of three guards and started to the Bolivar jail. On the road the robber, with his guard, were confronted by a party of unknown horsemen and the prisoner demanded; the guard resisted, but was overpowered, and nothing more was seen of the robber until his body was found in a well near Middleburg, badly shot. Capt. Avent was removed to the house of a friend, where his demise is looked for hourly. He is a noble young man and high-toned gentleman, and was a brave, chivalric soldier, and will leave a young wife, father, mother and a host of friends to mourn his loss.

ST. PATRICK'S FAIR.—There was a very good attendance at the Fair last evening, notwithstanding the unfavorable weather, and all present appeared to enjoy themselves with much spirit. The magnificent mirror to be voted to the cheapest dry goods house in Memphis was in the hall and is an ornament that any store might be proud of. The prominent candidates for securing it are: Messrs. B. Lowenstein & Bro., Wells & Coll, Howell, Wood & Co., and J. H. Loewenstine & Co. The fine undertaker's case attracted some attention, John Walsh, Owen Smith, and Holst & Co. receiving votes from many of their friends. The beautiful solid silver badge, appropriately inscribed, for the most efficient policeman, will doubtless cause a lively contest, presenting a splendid opportunity for any person to show their appreciation of the merits of a worthy officer. The favorite candidates last night were: P. Maloney, J. Powell, M. Brandy, P. K. Burke, and Kane Cusick. The Fair will be continued this evening, a quadrille band being engaged for the enjoyment of those who love to dance. There should be a full house to second the efforts of the ladies in their worthy enterprise.

ESCAPE OF A MURDERER.—J. H Stafford, charged with committing a murder in Iowa some months since, and who was lately arrested here under a requisition from the Governor of that State, made his escape from the officers who had him in charge, yesterday, as he was being conducted to jail. Fifteen hundred dollars is offered for his recovery.

DISTURBING WORSHIP.—Candis Jones and Mary Armstrong wilfully and maliciously disturbed the services at the Second (colored) Presbyterian Church on Sunday last. They were arrested and carried before 'Squire Griffith, who sent them to the Criminal Court under $250 bonds, each.

CYRUS KIMBALL, a "burly Ethiop" of a hundred and eighty in weight, complained that his spouse was in the constant habit of walloping him. He was at last driven to the recourse of calling upon 'Squire Griffith to protect him, which the 'Squire did, and had the obstreperous African, Mrs. Candle, arrested. She will be tried to-day.

THE I. O. S. M.—Pursuant to the call in the morning papers of the past few days, we learn that a large meeting of the old members of the Sons of Malta convened last night at the rooms of Sam Shock, Esq., (the Hall of Cyrene Commandery being engaged,) and organized a Society with similar objects to that Society, (charitable altogether,) and commenced work with fifty paid up members. Many a blessing will be showered down upon this association during the coming winter by the widows and orphans of Memphis.

A NEW DEAL.

Proposed Judicial Changes by the Radicals.

Nothing is safe from Radical hands. Everything, from a spoon for Ben Butler to a Judgeship for Waldran, is "their meat." Only let them see a "point" in sight, and they go for it. Nothing is too sacred for them. A Judgeship on the Supreme Bench is no more to them than the position of door-keeper to a dog-fancier's. The Legislature is only a grinding machine for their follies and wickedness; and these they would have that body turn out every day. Just now in Nashville they have "rings" of all sorts and for every purpose that Radicalism can devise.

We heard from one of these yesterday—from the judiciary ring—the ring that is charged with the promotion of the Judges of the extra Radical section of Radicalism, and the removal of the few who try to do what is right. Our news is to the effect that this "judiciary ring" is moving heaven and earth in an endeavor to remove Judge W. M. Smith from the Chancery Court and elevate Hunter to his place, and Jimmy Gallagher to Hunter's as Judge of the Criminal Court. Judge Lee, of the Law Court, is to be removed to make place for Waldran, whose seat on the bench of the Municipal Court is to be filled by some one of the accomplished gang of Waldran's friends upon whom his snow-white mantle is fit to fall.

This is the latest development of the wicked purposes of the Radicals of Memphis, who seem bent upon attaining such complete supremacy in judicial affairs as will enable them to accomplish any villainy upon which they may determine or chance give rise to. We hope that better councils will prevail with the Legislature, and that if any judicial reform is attempted it will be of a character that will insure for the people the services of such gentlemen as before the war graced the bench and sustained the dignity of the Courts.

CRIMINAL COURT.—*Wm. Hunter, Judge.* Nothing is now being done in this court, owing to the illness of Judge Hunter. The commission so anxiously looked for, appointing *somebody* special Judge, has not yet arrived, much to the regret of the Clerk, whose daily occupation now is to adjourn the court from morning to morning, with the hope that each time will be the last.

U. S. DISTRICT AND CIRCUIT COURTS—*Hon. Connally F. Trigg, Judge.*—There was a large attendance of lawyers, clients and visitors yesterday. The list of jurors were called over. THANKSGIVING DAY.

To-morrow being Thanksgiving Day, there will be no paper issued from this office on Friday—a fact, which if there was no other reason to be thankful for, is of itself enough to produce in the bosoms of the editors and other employees a feeling of profound gratitude and satisfaction.

Thanksgiving Day is peculiarly the great social and religious festival of New England, and is a legacy of the Puritans. They abolished Christmas as a relic of Popery, or of *prelacy* (which they held in equal abomination) and they passed laws to prevent its observance, but wanting some day to replace it, every year the Colonial Assemblies, and later the Governors of the States, appointed some day at the close of autumn—generally the last Thursday in November—as a day of solemn prayer and thanksgiving for the blessings of the year, and especially the bounties of the harvest.

For many years it was confined to that portion of the country known as the New England States; but gradually, through migrations from those parts, it spread to other portions of the country. It has been but a very few years since it was almost unknown in the South, and, indeed, it never has been looked upon in the light of the religious festival, which it still is North, among us who, through ancient tradition, observe Christmas as the season of thanksgiving and gladness, and accord to it that reverent and joyous commemoration which the "Puritan Fathers" deemed idolatrous and "Popish," when they substituted thanksgiving in its place.

At the present day it is generally observed throughout the South, however, by newspapers and other public institutions and offices, as much though respect to the power proclaiming it as for any other reason—though we all feel perhaps as strongly and as deeply the goodness and mercy of the great and good Being to whom it is dedicated as the descendants of the Puritans.

COMMERCIAL HOTEL.—We were much pleased, in looking over the long list of names on the register of the Commercial Hotel, to note many names of gentlemen and their families from Mississippi. Our sister State of Arkansas, too, is well represented. The many home comforts found at this well-kept Hotel offers the strongest inducements to visitors and travelers. The good cheer; genial and polite assistants cannot fail to make the Commercial popular with the traveling public.

FROM HAYWOOD.

The Citizens Determine to Maintain Law and Order.

Patriotic Resolutions.

While the enemies of the South, both at home and abroad, within and without our borders, are busying themselves in manufacturing terrible stories of Southern rebelliousness and Ku-klux outrages to frighten off immigration, and to provoke a partizan Congress to still greater lengths of tyranny and oppression, our people, as if to give the lie direct to these malicious fabrications, are quietly employed in their daily vocations, or assembling only in such meetings as the one of which the Brownsville *Bee*, of Saturday last, details the proceedings of, and which convened at the court-house in that town on the 17th inst.

The object of the meeting was to bring public sentiment into exercise, to uphold the civil law and its officers in the discharge of their duties, and to frown down violence of all kinds, and it was composed of citizens of all classes and political creeds.

After speeches from several gentlemen of different political proclivities, a committee was appointed to draft a series of resolutions, and who, after a short retirement, reported the following, which were unanimously adopted:

WHEREAS, a state of affairs at this time exists in some portions of the county of Haywood, greatly to be deplored by all good and law-abiding citizens, regardless of political tenets. And, whereas, we have met together this day, not as Radicals, Conservators, or Democrats, but as peace men, law-abiding men and true friends to our fellow men, seeking and desiring to establish peace and harmony in our midst and a kind and friendly feeling between the races, thereby giving protection to all classes, regardless of race and color. Therefore,

Resolved, That we are determined to do equal and impartial justice to all men, uninfluenced by political considerations and unmoved by any and all prejudice against race or color.

Resolved, That we are sincere and in earnest, and that we pledge ourselves, that laying aside all party feeling, we will contribute and use all means within our power to remove the prejudice of one race against the other; to remove strife; to put enmity; eradicate every root of bitterness, hostility and unkindness, which is producing such bitter and bloody fruits.

Whereas, there have lately been disturbances in this county of Haywood, leading to breaches of the peace, violence and bloodshed, and creating and keeping alive a morbid excitement in the public mind, alike detrimental to christianity, good morals, the majesty of the law, the spirit of enterprise and the prosperity of our country. Therefore,

Resolved, That it is the determination of this meeting, composed of law abiding citizens, irrespective of political differences, to uphold the majesty of the law, and to rally to the support of its ministerial and executive officers, when called upon, in the discharge of their duties.

Resolved, That we discountenance, discourage and condemn violence and mob law.

Resolved, That it is better to obey oppressive laws for the time being, until they can be altered, than to set them at defiance and have mob law.

Resolved, That oppressive and discriminating laws should be repealed without delay, but that whilst they remain on the statute book it is the duty of every citizen to obey them.

MEMPHIS, November 24, 1868.

FINANCE.

Gold opened in New York to-day at 134¼c, and closed at 134¾c. New York Central opened at 23⅞c; Erie, 40c; and closed with Central 24¼c; Erie, 37⅜c.

In this market there is but little coin selling. Gold is bought by brokers at New York rates, and sold at an advance of 1@2c.

The active demand for currency yesterday and to-day has caused some tightness in the money market, and in order to meet the wants of our cotton men liberal shipments have been ordered and may be looked for to-morrow or next day. The scarcity of small notes has been a matter of very serious inconvenience for some days back, and some of our banks were compelled to order three or four days ago, although having all the large currency they wanted. The drain to the country for the purchase of cotton goes on steadily, and the inconvenience experienced there for want of small change may be easily conceived.

Very large offerings of exchange are reported, and it is no unusual thing for buyers to negotiate for covering 300 to 500 bales at a single purchase. A very large proportion of this money goes to the planter, and is taken home to be laid away for the future, withdrawing for the time being at least that amount from active circulation. All bills upon New York are taken at ½ discount, and upon outside points at ½ discount. New Orleans sight is the same as New York, but some heavier. Our discount houses check on all points at par.

City bonds are nominally the same. A broker having an order to fill for plain bonds was unable to buy at 51c. Holders asked 52c, but it was thought they would split the difference. We heard of no sales.

$5000 Memphis City Railroad bonds were offered to-day but were unsold at noon. Only a few of these bonds were issued—not, we presume, exceeding $15,000, and having but a few years to run should be worth nearly their face. We learn, however, that 60@65c are the nominal quotations.

City Scrip is a little weaker with larger offerings. A lot of $4500 was offered at 83½c, and would have been closed out at 83c, while we heard of 84c being offered for a lot of $6000 to $7000, and refused. Brokers are selling to tax payers at 85@87c.

County Warrants are dull and are tending to lower rates. Dealers are generally well supplied, and are not anxious to buy. The offering rate ranges from 71@73c, just as they happen to need it. Selling at 75@77c, in large and small ways.

Police Scrip is scarce. Buying at 90c; selling at 95c.

The following circular, to Assistant Treasurers and designated depositaries of the United States, explains itself:

TREASURY DEPARTMENT,
TREASURER'S OFFICE, WASHINGTON,
November 19, 1868.

Sir: You will please select from the United States legal tender notes that you may have on hand on the receipt of this, and from those that you may receive at any time thereafter, all notes which are mutilated, and in your opinion so much soiled, defaced, or worn, as to be unfit for circulation. Also, all notes of the denomination of $50. It is the desire of the Department, as these have been successfully counterfeited, to withdraw all of this denomination from circulation. You will also retain all notes issued under the acts of February 25, 1862, and July 11, 1862, known as the convertible issue of legal tenders, or those bearing upon their back the legend of which the following is an extract: "And is exchangeable for United States six per cent. 20-year bonds, redeemable at the pleasure of the United States after five years." It is desirable to withdraw these notes as speedily as possible, as this office is daily in receipt of letters from individuals who are still persistent in their requests to obtain bonds for them, although the time allowed for such conversion has long since expired, as the following clause from section 3, of the act approved March 3, 1863, will show: "And the holders of United States notes, issued under and by virtue of said acts, shall present the same for bonds, as therein provided, on or before the 1st of July, 1863, and thereafter the right to exchange shall cease and determine." You will then please hold all the notes mentioned, and advise me of the amount, that the same may be transferred here for redemption, and new notes issued in lieu thereof; or you may at any time remit them in sums of $1000, or any multiple of that sum, through the Adams Express Company, or any express company connecting with that Company, at Government expense, in the same manner as mutilated fractional currency is now forwarded to this office. All such remittances may be charged to this office in account as a transfer of funds, or you may receive at your option a check on New York, Boston, Philadelphia, New Orleans, or San Francisco, or new notes of such denomination as you may designate will be transmitted to you in exchange by Adams Express, free of charge. F. E. SPINNER,
Treasurer of the United States.

COTTON.

Cotton was tending upwards in Liverpool at the opening to-day; Uplands, 11¼d; Orleans, 11¼d; and at 1:20 p.m. prices were a shade better but not quotably higher. At the close it had advanced to 11¼d for Uplands; Orleans, 11¼d. Sales 15,000 bales. The New York market opened very firm, with holders asking higher rates; 25c bid for Uplands; 25½c for Mobile; 25¾ for Orleans. There was no change in prices at noon, though holders were asking an advance. Buyers were cautious. At 3 p.m. the demand was moderate and prices firm, and at 4 p.m. the demand was moderate and prices firm, but scarcity of freight room checked business; Low Middlings, 24½c; Uplands, 25½c; Good Middlings, 26¼c; Mobile, 25½c; Orleans, 25½c. There was an active inquiry in this market, and holders gradually advanced their views until at the close 23c was about the best that Middlings could be bought at, though most of the transactions of the day were made at 22½c. Among the sales, 18 bales Ordinary at 21½c; 12 and 27 Good Ordinary, 21½c; 4 at 22c; 85, 60, 5, 52, 242, good style Low Middlings at 22½c; 100, 170 and 60 Low Middlings, 22½c; 500 Low Middlings, good style p. t., 100 Middlings, 22½c; 70, 84 Middlings, 22½c; 3 at 23c. We quote as follows, with market tending upwards:

Ordinary	21 @21¼
Good Ordinary	21¾@22
Low Middlings	22 @22½
Middlings	22¾@ —
Strict Middlings	23 @23½
Good Middlings	24 @ —

MISCELLANEOUS.

HELENA, ARK., November 24, 1868.

River Editor Appeal: The Myrtle will leave Memphis Wednesday, at 5 p.m., positively, for Hale's Point.

W. C. HARDWICK, Master.

Capt. Reese Pritchard's new boat, the Thomas H. Allen, built at Madison, will leave Cincinnati on Friday for Memphis. She will be here in the early part of the week ready to take her place in the Memphis and Arkansas river packet line.

The City of Cairo is the regular Thursday Cairo and St. Louis packet.

A new steamer, the Lucy, was launched at Knoxville Saturday, and will, when completed, ply between Chattanooga and Knoxville.

The Hesper came in from Hale's Point yesterday with a fair list of cotton. She has laid up to have a cabin put on, which will be completed in three weeks.

The P. W. Strader passed up yesterday for Louisville.

The Luminary, Capt. Luker, will pass down for Vicksburg to-day. She is the "banner boat" of the trade. J. Lee Finney is clerk.

The elegant low-pressure Richmond goes to New Orleans to-day. She is one of the safest and best passenger packets afloat, and is a great carrier. Capt. Stut Neal is master, and Mr. Woolfolk is in the office.

The W. A. Caldwell, Capt. Rube Haynes, is the regular Thursday U. S. mail packet for Pine Bluff and way points on the Arkansas.

The City of Cairo will be in port to leave for Cairo and St. Louis to-morrow. Malin is master. She makes all connections.

The famous passenger packet Magenta, with Frank Hicks on the roof, and Sullivan and Green in the office, backs out to-morrow for Vicksburg and New Orleans, making all way landings. The Magenta is worthy of a good trip, and we trust that she will get one. She had a fine up trip.

The Arkansas is the name of a new steamer just completed at Pittsburg for Capt. A. H. Shaw, late of the Minnie and formerly of the M. S. Mepham. She is designed for the Arkansas river trade, and is 185 feet in length, 36 feet beam, 5 feet hold, and 4 inches bottom. The cylinders are 16 inches in diameter, 5½ feet stroke. She has 3 boilers 38 inches in diameter and 26 feet long.

The magnificent Ruth will leave on Saturday for Vicksburg and New Orleans. Capt. Pegram is master.

Capt. Dan Able will pass down to-day with the Mollie Able, on his way to New Orleans. Capt. Dan is too well known here to need any praise. As Mike McCool is captain of the lower deck, we expect that a crowd will be on hand to witness his arrival.

The Virginia, Capt. Holcroft, with Charley Shultz in the office, will be in port to leave for New Orleans to-day at noon.

The Hesper has been taken to the upper landing, where a cabin will be placed upon her.

We learn that the Argos has been, or is likely to be sold to some parties on the St. Francis.

The Myrtle, with Bill Hardwick on the roof, leaves for Hale's Point to-day. She will ply regularly in the trade as advertised elsewhere.

"Write me as one who loves his fellow men," said a Feejee Islander who had just lunched off a ship master.

A Californian has predicted and finished in model what he fondly anticipates will be the great ship of the age. It is to be the same size as the Great Eastern, except that it will draw ten feet less of water, but as it is to be used exclusively as a passenger ship, the loss of tonnage amounts to nothing. The state rooms are to be situated amidship, where the occupants will not be so much affected by the rolling of the craft, and the engines and other machinery are to be placed in an outer jacket, as it were. Passengers are to be given bedsteads instead of bunks, and charged $50 for a passage to England, to be made in seven days, meals furnished at two "competing restaurants" on board.
